- My husband, Rick, and I have lived at Lake Doster for over 37 years. During that time we raised two amazing kids, Lauren and Brandon. Both children are married with children of their own. This place holds very fond memories for our family growing up, now we are creating special ones with our grandchildren.
- I am retired from a 30 year career in the pharmaceutical industry during which I held numerous positions. Those positions include lab technician, quality assurance, management, project lead, and project management. My career experience includes working with large and small teams from multiple locations and countries to develop strong solutions.
- I have been a member of the Board since 2020. During that time I have served as the Secretary. The responsibilities include meeting planning, recording meeting minutes, upkeep of the LDLA website, member correspondence, and newsletter. Prior to joining the Board, I was a member of the Governing Document Review Committee (GDRC). The committee's responsibilities included conducting a survey of Association member concerns, updating our regulations, By Laws, and Plat documents based on the results of the survey. The By-Law changes are up for vote by the membership at the 2022 Annual Meeting.
- I believe that everyone has a right to be heard. I also believe that we must be willing to listen to other points-of-view. My work experience has demonstrated to me that the best solutions are always ones in which the participants work for the common good.
- I believe in transparency, communication, and civility. We are neighbors and we need to be able to discuss as well as resolve our issues.
- Lake Doster is a wonderful place to live, if elected I will work to sustain and protect what we have while looking forward to what will help this community to continue grow.
