

Larry Wilson

Bio

2026

After college, my wife Nancy (a special ed teacher) and I (budding CPA) began looking for jobs. It did not take long for us to decide we did not want to live on the other side of the state. We were fortunate to find Otsego Public Schools and the accounting firm of Ernst & Ernst in Kalamazoo. We lived in Otsego and then in Plainwell for a few years and then in 1979 we found our house at Lake Doster. At the time there were five homes on the east side of the dam.

I joined the LDHA and served on the board for several years, learning, interacting with the developers, and watching our community grow. When the LDLA was formed and the lake was acquired I served as an advisor to the board on several occasions.

Over the years I started my own accounting firm, merged with the firm of BDO and then joined Plante Moran before retiring. During that time, I served on the boards of the YMCA, Family & Children Services, Kpep, as well as committee assignments at Christian Neighbors.

I believe that it is important for a board to have members that can bring a history as well as members that are newer to the community and I would appreciate your support of my candidacy for the Board of Directors.
