

## **Wayne Halvorsen**

Bio

2026

Wayne Halvorsen is a current member of the Lake Doster Lake Association Board of Directors and is seeking re-election to continue serving the community. Originally from Chicago, Wayne built a 43-year career as a machinist, retiring in 2020 as a Machinist Foreman with the Metropolitan Water Reclamation District of Greater Chicago. In this leadership role, he oversaw the daily operations of a large machine shop, including the repair and rebuilding of pumps critical to wastewater treatment, while managing a team of 30 employees.

Wayne and his wife, Heidi, have been married since 1982 and raised three sons together. Throughout those years, Wayne was actively involved in his community, serving on and eventually chairing a local school board, as well as holding leadership roles within his church as a board trustee and chairman of the congregation.

Following retirement, Wayne and Heidi relocated to Southwest Michigan to be closer to family and found their ideal home at Lake Doster. Since moving in 2020, they have embraced the community, enjoying the lake lifestyle, golf, and the friendships they've built with neighbors.

Over the past year, Wayne has been proud to serve on the LDLA Board of Directors and is eager to continue contributing his experience, leadership, and commitment to the Lake Doster community.
